

Directions to Roads and Wheels

Download the file Roads and Wheels. If you have a heavy stock paper print the Wheels on that paper. The Roads page can be printed on any type of paper. Either you or your students should cut out the wheels and then have the children match the wheel to the correct road. Each wheel should roll smoothly on only one of the road surfaces. Try not to let the wheel slip as you rotate it along the road.

Answers: The square fits on Road *A*, the pentagon on Road *B*, the hexagon on Road *C*, the heptagon on Road *D* and the octagon on Road *E*.

Road *A*

Road *B*

Road *C*

Road *D*

Road *E*
